Salt Mine Berchtesgaden.

Experience the extraordinary in the fantastic Salt Mine tour.

Since opening in 1517, it remains a unique chronicle of 500 years of uninterrupted salt mining. Pure Alpine brine is still extracted in the salt mine today. Our visitors become immersed in the world of „white gold“ and experience the amazing atmosphere of mining in the depths of the Alps. The mine’s railway, separated from the mining area by only a rock face, takes you 650m deep into the mountain, where you’ll find the cavernous Salt Cathedral and spectacular Miner’s Slide.
